Science – Plants – basic structure and observing growth over time
Art – Observational drawings and paintings developed into printmaking
Design Technology – Food – preparing and combining foods
Music – Explore classical composers
PE – Dance and Games
PSHE – Keeping Safe
RE – Judaism – Why might some people put their trust in God? – The story of Noah and the festival of Sukkot

Class 3 - Home Learning - Spring 2

Dear All,

I hope that everyone had a lovely half-term holiday. I managed to do some walking, reading and telly watching - so it was all good!

I am writing this before the Government announcement, which will be on Monday as we return to school. So apologies now if things change a little as we move forward into this next half term.

I have planned things for the start of the half term pretty much as we were doing last one. We seemed to fall into a good routine and everyone was doing the best in their own personal situation, so thank you!

Hopefully we will be back in school very soon!

Best Wishes Mrs Kelsey

MATHS: **1 2 3**

Our Mastery Maths topics this half term include –

- Place value within 50
- Measurement – length and height
- Measurement – weight and volume

SCIENCE: **Plants**

This half term we are going to be learning all about growing plants. So if you get the chance at home have a go at growing some seeds or bulbs. Have a go at some gardening... it is great fun and the fresh air is also good for you!
